

LIGHT-DIFFUSING SHEET, OPTICAL ELEMENT AND IMAGE VIEWING DISPLAY

5

ABSTRACT

A light-diffusing sheet includes a transparent film and a light-diffusing layer formed on at least one side of the transparent film. The light-diffusing layer is composed of a resin coating layer having a rough surface. The transparent film comprises (A) a thermoplastic resin having a substituted and/or unsubstituted imide group at a side chain
10 and (B) a thermoplastic resin having a substituted and/or unsubstituted phenyl group and a nitrile group at a side chain.
